## TO BIDDERS

1. Specifications Section 00800, paragraph 22, **Field Office**: Insert the following paragraphs as indicated:

Paragraph 22a, following the sentence that ends with "(fax, modem and voice)" insert the following sentence:

"The Contractor shall also make arrangements and pay all connection costs and fees for either Business DSL or Cable Modem Service to the field office for data line connection. These services shall be arranged for the entire contract duration."

Paragraph 22a, add the following bullet items under "Hardware":

Front and rear USB Ports
3 COM 10/100MB Base-T Ethernet Network Interface Card (NIC)
Microsoft TCP/IP.
DSL or Cable Modem

Paragraph 22a, add the following paragraph following the "Cellular Telephone" paragraph:

**DSL or Cable Modem Service**: Business DSL or Cable modem service with all required equipment (modems, filters, etc.). DSL service shall be 1.5Mbps downstream/384Kbps upstream. Service shall utilize a Static IP address for the connection. Contractor shall pay all

After Paragraph 22 b, insert the following:

Computer Security requirements:

The contractor will agree to accept responsibilities and comply with procedures indicated below in connection with the furnishing of Contractor-owned computers for use by Government personnel in accordance with contract requirements.

- a. The computers must be dedicated exclusively for Government use. Contractor will not use any computer it supplies which is designated for use by the Government. Contractor will assure that the Central Processing Unit (CPU) is electronically isolated from the contractor's and not inter-connected via Local Area Network (LAN).
- b. Normal access to the computer shall be restricted to Corps of Engineers personnel. Contractor shall set up computers in a secure area and give the keys to the Government. Contractors must immediately notify Government personnel when emergency access to the computer location was exercised by non-Government individuals, and what the circumstances were.
- c. If the CPU hard drive fails, the Government will furnish an equivalent hard drive to the owner of the computer, and the old hard-drive will be returned to the Government. Contractor shall not remove any hard drive nor proceed with any repair of the computer unless an authorized Government employee witnesses and approves of the repair.
- d. At the time of return of the computer, the Contractor will allow the Government to first remove all information from the hard-drive.
- e. Contractor agrees to provide a written certification signed by an authorized officer of the company agreeing to the above policy.
  - 2. This Amendment shall be attached to the specifications and shall be a part thereof.
